Dear Gerald:

Enclosed is a copy of the sketches and information which I sent to Richard Jefferson concerning installation of flow sensors and air valves. I am thinking right now this would be good information to send to the pumpers in the Milford Area. Possibly this should be required as the next step in the metering order for the Milford Area to insure the proper operation of the water meters. Please review these sketches and let me know if you see any problems with them and the idea of requiring this type of installation.

Also enclosed is the letter I sent to Clair Hunt concerning the water meter situation in his area.

Please get back to me with any comments you have.

Sincerely,

Lee H. Sim, P.E.
